Docket No. Yor-26-118 | Related Appellate Proceeding: Yor-26-46

JUSTIN A. TAHAI, Appellant, pro se
v.
AMANDA MORSE, Appellee

APPELLANT'S MOTION FOR LEAVE TO AMEND TITLE FOR CLARITY AND TO CORRECT THE INADVERTENT OMISSION OF "PROCEDURAL DERECTUMIFICATION"

COMES NOW Appellant and, for clarity, moves for leave to amend the title of the consolidated filing dated November 15, 2026 by replacing "PROCEDURAL RECTIFICATION" with "PROCEDURAL DERECTUMIFICATION."

The amendment changes no allegation, authority, requested relief, appendix, or service designation. It corrects nomenclature. "Rectification" understates a filing expressly directed to restoring adjudicative line-of-sight where institutional attention appears obstructed by procedural self-importance. "Derectumification" more precisely identifies the metaphorical extraction already requested and should eliminate any residual uncertainty concerning why plainly presented substance has proven so difficult to see.

After two years of Appellant's life and continuing harm to his family, euphemism no longer serves clarity.

WHEREFORE, Appellant requests leave to amend the title accordingly. The omission was clerical. The obstruction is substantive.

Dated: November 15, 2026

Respectfully submitted,

/s/ Justin A. Tahai
